Barbara Becker: WORKING FOR A GOOD CAUSE by Nathalie Riahi

Dusseldorf - "Kiki and I meet regularly in Florida where I live. There we swim with dolphins. I know the magic of these animals."

For three years now, Barbara Becker has supported dolphin aid as an ambassador. dolphin aid is a charitable organization founded in 1995 by Kirsten Kuhnert. Through donations, the organization enables special-children to have dolphin therapy.

Now Barbara Becker has found a special project within the organization. She is asking the general public to collect printer cartridges and cell phones in order for them to be recycled. How does this help dolphin aid? The company "German Hardcopy" has supported dolphin aid for many years. For each recycled cartridge, "German Hardcopy" donates 1.00 Euro to dolphin aid, and for each recycled cell phone, 2.00 Euro. Info: www.dolphin-aid.de
