APPLAUSE, APPLAUSE! Help from the ocean for children

After an accident, the son of Kirsten Kuhnert fell into a coma. Only after a therapy with dolphins did he awaken and get better. This happened ten years ago and resulted in the beginning of dolphin aid, a support organization which enables special-needs-children to participate in the costly but most successful dolphin therapy.

Meanwhile, thanks to Kirsten Kuhnert, 700 children have been treated (www.dolphin-aid.de). She and 49 other people are now presented in the book "Modern Heroes". (Michael Fuchs, Steffen Gill, Kamphausen, 20.00 Euro)
